The term 'Natural Money' has been changed or has to be changed into 'Fractal Money'.

Introduction of Natural Fractal Money

Jules Ruis d.d. 1 July 2009

Introduction

Usury and credit are the root cause for the collapse of the financial system, the destruction of Earth and nature and the social disintegration of society. Natural/fractal money is based on the corn money system Joseph introduced to the Egyptians around 3,500 years ago. Natural/fractal money will be an unstoppable power that will overthrow the current economic order, as soon as it comes into existence. It is the most efficient monetary system ever designed. Natural/fractal money will force humanity to live in harmony with nature, distribute wealth more evenly and diminish government control over economic life.
